

Install Guide - Jabber for Android

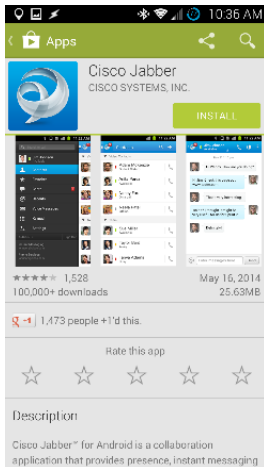

Install Requirements

- Cisco Jabber for Android requires that your account is enabled for Jabber by Information Technology Services

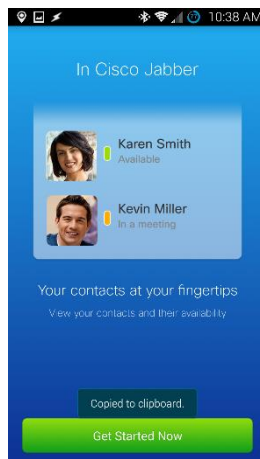

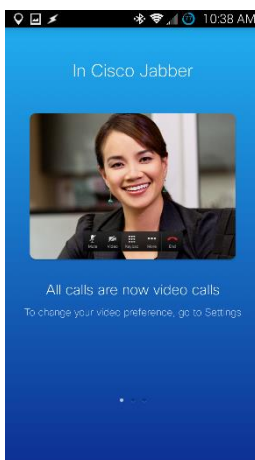

1. Ensure your Wi-Fi is enabled and connected
2. Go to the **Play Store** App on your Android phone and search for **Cisco Jabber**

3. Choose the **Cisco Jabber** app by Cisco Systems Inc. → Touch **Install** → **Accept and download**

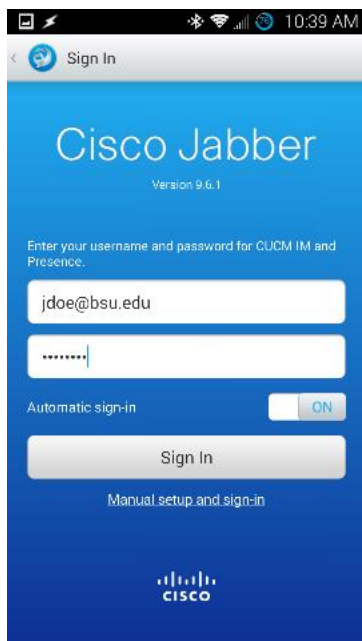

4. After installation completes, open Cisco Jabber → **Accept** the end user agreement
5. Cisco Jabber will launch. Scroll to the right and click **Get Started Now**

6. Enter your Ball State e-mail address

7. Enter your Ball State password

8. You are now ready to use Cisco Jabber for Android. Please view the Quick Reference and User Guide for more information.
